ALU 200

Double Head 45° Aluminium Cutting and Drilling of Edge Connections

- ALU EXPERT 300 designed to cut serial 45 degree wooden, aluminium profile and PVC and drilling the corner connection.
- The progress takes 10-15 sec.
- The Machine has air operated system for damping the item safely.
- The cutting saw and drilling unit moves with air-operated system.
- Profile dimensions easy and zero adjustment with precision ruler.
- Left cutting group is fixed and right one is movable on lineer.
- The cutting group moves on lineer which has lubrication system.
- The machine has self cooling system.

Technical Specifications

- Saw Diameter: 200 mm
- Cutting Rpm : 3000 Rpm
- Cutting Saw Rpm.: 5000 Rpm
- Cutting Motor Power : 0,55 Kw
- Minimum Cutting Length : 200 mm
- Maximum Cutting Length : 2100 mm
- Maximum Cutting Width : 60 mm

-Maximum Cutting Height : 40 mm

-Width-Lenght-Height : 800-2900-1500 mm

-Weight : 330 Kg
