DC 300

Aluminum Digital Measuring Table

The DC300 digital conveyor is appended to the right side of the cutting machines to provide an easier cutting process. Simply entering the length to the touchscreen the measurement block will move to the requested position.

- 0,1mm measurement accuracy
- 3 meters long
- Touchscreen
- After each cut is done, the measuring block moves back one step so the profile can be easily taken
- Practical design for efficient use

Technical Specifications

- Power Supply : 220 V, 1 ph, 50-60 Hz
- Machine Height : 1000 mm
- Machine Length : 4700 mm
- Machine Width : 500 mm
- Machine Weight : 200 kg
- Minimum Profile Working Length : 5 mm

SIZE UNIT: mm
